

Diana Shatkova

Project Manager

27 years old

ACADEMIC

School path :

- **Currently** : Northwestern Polytechnical University, Xi'an, Doctor's degree in Control Science and Engineering (taught in Chinese).
- **From 2018 to 2019** : Northwestern Polytechnical University, Xi'an, Intensive course of Chinese language.
- **From 2016 to 2018** : Moscow Polytechnical University, Moscow, Master's degree in Modeling of processing CNC machines.
- **From 2012 to 2016** : University of Mechanical Engineering, Moscow, Bachelor's degree in Technological machines and equipment.

Computer skills :

- Computer assisted drawing (SolidWorks, Autodesk)
- Computation software (MATLAB, Simulink)
- Presentation software (Microsoft Office, InDesign)
- Maker-up software (Illustrator, Photoshop, CorelDRAW)

Modules studied :

- Mechanic conception
- Strength of materials
- Finite element modeling
- Maker-up designer

EXPERIENCE

Professional :

- **Currently** : Association of Children's Eye Clinics "Yasniy vzor", Moscow, Project manager of 11 clinics.
- **From Nov 2020 to Sep 2021** : Joint Stock Company DealMed, Moscow, Project Manager of medical equipment's "STERN".
- **From May 2019 to Jan 2020** : Chinese metal-working factories, Xi'an, Project Manager of Russian-Chinese relations.
- **From July 2016 to Aug 2018** : AVEA group, Moscow, Specialist in technical equipment of production/Design engineering.
- **From Sept 2013 to Feb 2014** : University of Mechanical Engineering, Moscow, Department assistant "Strength of materials".

Projects:

- **2019** : Metal-working project «Watch», 1000 p., Russia-China production, control of all time process.
- **2019**: Metal-working project «Body kits», 5000 p., Russia-China production, control of all time process.

Abroad :

- **2018** : China, Northwestern Polytechnical University.
- **2015** : South Korea, Hyundai competition project.
- **2013** : Italia, Summer School.

PROFIL

Creative, young and motivated, I am seeking a new job opportunity abroad. After studying engineering sciences and my first job in Russia, I went to China to develop new language skills and to open myself to another culture. With my new knowledge, I returned to Russia to develop my management capabilities. Firstly in a medical equipment factory, then in an ophthalmology clinic where I am currently working as a project manager for 11 clinics. Today I have a great motivation to return abroad to use my acquired skills and to learn new ones.
